

Deprecations

Soft Deprecations

This functionality is currently soft-deprecated:

Writing Tests

Assertions, Constraints, and Expectations

Issue	Description	Since	Replacement
#5472	<code>TestCase::assertStringNotMatchesFormat()</code>		
#5472	<code>TestCase::assertStringNotMatchesFormatFile()</code>		

Test Double API

Issue	Description	Since	Replacement
#5240	<code>TestCase::createTestProxy()</code>		
#5241	<code>TestCase::getMockForAbstractClass()</code>		
#5242	<code>TestCase::getMockForWsdl()</code>		
#5243	<code>TestCase::getMockForTrait()</code>		
#5244	<code>TestCase::getObjectForTrait()</code>		
#5305	<code>MockBuilder::getMockForAbstractClass()</code>		
#5306	<code>MockBuilder::getMockForTrait()</code>		
#5307	<code>MockBuilder::disableProxyingToOriginalMethods()</code>		
#5307	<code>MockBuilder::enableProxyingToOriginalMethods()</code>		
#5307	<code>MockBuilder::setProxyTarget()</code>		
#5308	<code>MockBuilder::allowMockingUnknownTypes()</code>		
#5308	<code>MockBuilder::disallowMockingUnknownTypes()</code>		
#5309	<code>MockBuilder::disableAutoload()</code>		
#5309	<code>MockBuilder::enableAutoload()</code>		
#5315	<code>MockBuilder::disableArgumentCloning()</code>		
#5315	<code>MockBuilder::enableArgumentCloning()</code>		
#5320	<code>MockBuilder::addMethods()</code>		
#5423	<code>TestCase::onConsecutiveCalls()</code>		
			<code>\$double->willReturn()</code> instead of <code>\$double->will(\$this->onConsecutiveCalls())</code>
#5423	<code>TestCase::returnArgument()</code>		
			<code>\$double->willReturnArgument()</code> instead of <code>\$double->will(\$this->returnArgument())</code>

Issue	Description	Since Replacement
#5423	TestCase::returnCallback()	10.3.0 \$double->willReturnCallback() instead of \$double->will(\$this->returnCallback())
#5423	TestCase::returnSelf()	10.3.0 \$double->willReturnSelf() instead of \$double->will(\$this->returnSelf())
#5423	TestCase::returnValue()	10.3.0 \$double->willReturn() instead of \$double->will(\$this->returnValue())
#5423	TestCase::returnValueMap()	10.3.0 \$double->willReturnMap() instead of \$double->will(\$this->returnValueMap())

Miscellaneous

Issue	Description	Since Replacement
#5236	PHPUnit\Framework\Attributes\CodeCoverageIgnore()	10.3.0
#5214	TestCase::iniSet()	10.3.0
#5216	TestCase::setLocale()	10.3.0
#5236	PHPUnit\Framework\Attributes\IgnoreClassForCodeCoverage()	10.3.0 @codeCoverageIgnore annotation in the class' doc-comment
#5236	PHPUnit\Framework\Attributes\IgnoreMethodForCodeCoverage()	10.3.0 @codeCoverageIgnore annotation in the method's doc-comment
#5236	PHPUnit\Framework\Attributes\IgnoreFunctionForCodeCoverage()	10.3.0 @codeCoverageIgnore annotation in the function's doc-comment

Running Tests

Issue	Description	SinceReplacement
#5812	Support for string array keys in data sets returned by data provider methods that do not match the parameter names of the test method(s) that use(s) them	10.5.18
